

Daniel Alejandro Dominguez

Full Stack Engineer

Summary

I'm a self taught programmer with 8+ years of experience developing, designing, maintaining and testing enterprise software applications. At this point in my life I can deliver code quickly without writing spaghetti code. I enjoy working with Ruby and Javascript using Rails on the back end and React on the front end. They just fit.

Work History

2020-01 -
Current

Full Stack Developer

2u.com

At 2u I'm working at developing an LTI with express/hapi and working with React on the FrontEnd.

Tasks

- Reviewed code, debugged problems and corrected issues.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Developed LTI and SAM applications.

app that required OCR, when you uploads bills through the app, the back end process and extract the results of the bill. It is mostly an accounting software like waveapps or quickbooks. I have built everything from the ground up within 4 years of development. It is on production currently I was in charge of the back end and the Front end of the project.

Tools:

- Angular 1
- Ruby on Rails 4
- Rspec
- Testacular(renamed to Karma)
- Git
- Asana
- ngrok
- postgresql
- Redis
- ElasticSearch

Third Party API's:

- Twilio
- Amazon Mechanical Turk.
- Quickbooks Online(Rest)
- Quickbooks Dekstop API(through SOAP)
- Clover API (rest)
- Sengrid
- Sidekiq
- Elastic Search
- Heroku

so I've

learned to use electron as well.

Pull requests examples:

- Add setting to skip desktop notifications.
- Add scam alert message when opening development tools.

2018-06

LBRY Blockchain marketplace - Mobile App

I contributed to multiple issues on the lbry project as part of my training on React Native/Redux.

Pull requests examples:

- Add QR code to the wallet address
- Clear search results when clearing search results input.

Publications

LBRY Ruby api wrapper

Interests

Strongly interested on Blockchain and Crypto projects, I've contributed to the lbry.io open source project as well.

I'm interested in music(percussion mostly) so I'm learning to play Drums.

Photography with a Nikon D5300 and 50mm lens.
